Advice to Postal Bidders

1. Return your commission forms sooner than later, as bids are recorded in the order that they are received. Where two bids are received for the same amount, the bidder whose commissions arrived first is the buyer, subject, of course, to bids from the floor.

2. If you are late with your bids, fax us your bids or telephone. Telephone bids can be accepted, although we would ask for the bid figures to be confirmed in writing as we cannot accept responsibility for mistakes.

3. All commissions are handled in the strictest confidence and, if successful, the lot is sold to the "book".

4. The auctioneer will normally increase the bidding in 10% jumps. We would ask postal bidders to keep their bids to the nearest multiple of US$5 or US$10. Bids of US$101 will be treated as US$100, and similar "odd" amounts will be rounded down to the nearest actual bid at the auctioneer's discretion.

5. It is important to realise that we will try to obtain the lot bid on for the lowest possible price, and we fully appreciate the fact that the bids given are the maximum figure that the bidder is prepared to pay for any lot.

6. We are happy to handle bids for customers who are interested in a number of lots, but wish to spend only a limited amount of money. Bidders are advised to mark their bids in the usual way and then clearly state the maximum amount they wish to spend.

7. In a similar way, if bidders wish to bid on a choice of two items, they should clearly mark on the commission form "either/or".

8. Please remember to give full details as to how the lot or lots are to be dispatched. Successful bidders will be sent an invoice immediately following the auction, and the general rule is that this must be settled in full before the item or items are dispatched. Insurance and postage are to be borne by successful bidders.

9. If there is any query before an auction about any item in the sale, or regarding a method of bidding, remember we have several overseas offices which can assist, and we are only a telephone call or fax message away.

10. **A "Buyer's Premium" of 15%+GST is charged on the hammer price, but there is no additional charge for executing bids.**

DON'T MISS OUT ON OPPORTUNITIES TO BUY - SEND US YOUR BIDS.

Payment

Mode: Payment shall be made in United States Dollars in the form of cash or cheques drawn on a United States clearing bank, or by means of a banker's draft or telegraphic or cable transfer directly to the auctioneer's bank account, quoting the original invoice number. BUT the customer will be responsible to Baldwin-Ma-Gillio-Monetarium for all bank charges and any differences in the exchange rates upon conversion.

Miscellaneous

Commission Buying: All commissions handled by Baldwin-Ma-Gillio-Monetarium are treated in the strictest confidence and are "knocked down" to the "book".

Estimates: The figures in the list printed below each lot are the auctioneer's estimation of the expected price and are published as a guide for buyers.

Prices Realised: A list of prices realised will be sent to bidders and consignors only. Others wishing to receive copies are asked to send in US$2 (or the currency equivalent) in cash. The auctioneer regrets that it is impractical for accounts to be charged for such a small amount. No list will be sent without full payment.

BALDWIN'S AUCTIONS LTD

BALDWIN'S AUCTIONS LTD was founded in 1993 by Edward Baldwin. The idea of establishing an auction house was a logical development from the traditional coin dealing business of A H Baldwin & Sons Ltd founded by Edward's great grandfather in 1872. Baldwin's have for generations been involved with auctions as advisors and cataloguers for many auctioneers in London and abroad. The auction company is closely integrated with the old family retail firm, giving it access to five full time numismatists, numerous consultants and a superb library. **BALDWIN'S AUCTIONS LTD** has state-of-the-art pre-press and digital photography facilities, taking care of all catalogue production requirements in house, including the present catalogue

BALDWIN'S had a part in the establishment of the first Singapore Coin Auction in 1986, and were frequent consignors over the years. We therefore were well placed to take over from Spink's when they withdrew from the original partnership in 1993. In 1994 Andre de Clermont joined the firm, ensuring continuity from Auction 1 to the present Auction 38.

In addition to our regular London auctions, which number 26 to date, and our participation in the Hong Kong and Singapore Coin Auctions, we also hold joint venture auctions in New York and Dubai. Our expertise ranges from Greek and Roman coins, through mediaeval and later European coins, to Indian, Asian and Islamic, as well as banknotes and commemorative medals.

Many of the Gupta, Mughal, Sultanate and British Indian coins, as well as British Imperial coins of Hong Kong and the Straits Settlements come from our consignors.

MONETARIUM (SINGAPORE) PTE LTD

MONETARIUM (SINGAPORE) PTE LTD was established in 1995 in partnership with Monetarium (Australia) Pty. Ltd.

Anthony Tan, the principal in Singapore, along with directors of Monetarium (Australia) Pty. Ltd., Jeff Dick, Tony Richardson and Andrew Crellin have a wealth of experience in the coin and banknote profession. Collectively, they have more than one hundred years of experience in the numismatic field. Leon Lee joined the company shortly after its inception and is now a director. This strong partnership enables them to participate professionally and meaningfully in the coin auctions of both Singapore and Hong Kong over the last few years.

MONETARIUM (SINGAPORE) PTE LTD operates retail premises in Singapore and specialises in all coins and banknotes.

MONETARIUM (SINGAPORE) PTE LTD enjoys an excellent reputation throughout the numismatic world. Their positive relationship with other numismatists from America, Asia, Australia and Europe is instrumental to the establishment of the business in Singapore. In addition, they have been associated with some of the rarest Singapore and Straits Settlements numismatic items. This included the purchase of the only known pair, with consecutive numbers, of the 1919 Straits Settlements 1000 dollars banknotes, for almost A$230,000. Although this is the highest price that has ever been paid for the banknotes from this area; it is the historical significance of re-locating these extremely rare items to their source that is far more rewarding and satisfying.
